## ABOUT ME

Computer Science graduate with a GPA of 3.75/4.00 and hands-on experience in software development, mobile application development, RESTful APIs, and cloud-based technologies. Skilled in Java, Python, Firebase, Android Studio, and software engineering principles. Completed a software development internship with Hewlett-Packard and developed multiple academic and personal projects involving AI-powered systems, cloud services, and mobile applications. Passionate about building innovative software solutions and continuously expanding technical expertise.

## WORK EXPERIENCE

### Software Development Intern, Hewlett-Packard (HP)

Jun 2024 – Aug 2024

- Assisted in the development and testing of RESTful web services and API integrations.
- Implemented and tested data upload functionalities using Java and Firebase.
- Conducted unit testing to improve software reliability and performance.
- Prepared technical documentation and project proposals.
- Collaborated remotely with software engineers in an Agile environment.

## PROJECTS

- TechShare (2025–2026) – Android marketplace app with AI pricing, Firebase auth, chat, reviews, and bookings.
- Coffee Shop App (2025) – Android app with admin/user roles, Firebase CRUD, authentication, and cart system.
- CloudNova (2025) – Designed secure cloud architecture with scalability, security, and disaster recovery planning.
- REST API Service (Academic Project) – Built RESTful web services with Java, including data upload and unit testing.
- GitHub Portfolio Projects – Developed multiple small apps and coding exercises using Java, Python, and Firebase.

## EDUCATION

### Bachelor of Science in Computer Science (Software Technology)

April 2022 – January 2026

Middle East College (Affiliated with Coventry University, UK)

- GPA: 3.75 / 4.00

## CERTIFICATIONS

- HP Virtual Internship – Software/Tech Experience (Forage)
- Advanced Software Engineering Job Simulation – Walmart Global Tech
- Software Development Job Simulation – Datacom
- Basic Web Development Bootcamp – ShapeAI

## KEY SKILLS

- Java Programming
- Python Programming
- Android Development
- Agile Methodologies
- Firebase & Cloud Services
- RESTful API Development
- Git & GitHub
- Problem Solving
- Database Management
- Software Testing
- Object-Oriented Programming
- Team Collaboration
